

Production Team Leader

- **Ongoing, permanent opportunity**
- **Leading Australian owned heating & cooling manufacturer**
- **Northern suburbs location**
- **9-day fortnight**

Climate Technologies are one of Australia's leading manufacturers of residential and commercial heating and cooling appliances and commercial air distribution products. With highly regarded brands such as Bonaire, Pyrox, Celair, Bradflo and Climate Technologies Chilled Beams the product list is extensive and impressive.

We are seeking a Production Team Leader to join our dynamic production team in a hands on role. Reporting to the Production Supervisor, you will be responsible for:

- Ensuring the safety of employees
- Efficient planning of the day to day activities of the production team
- Assisting in the planning, ensuring production schedules are maintained, and communicating time targets to the team
- Ensuring quality expectations of our customers are achieved supporting Work Instructions and procedures in accordance with our Quality System
- Assist in problem solving with the team to ensure positive outcomes

To be successful in this role you will have:

- Experience on fast-paced assembly line
- Lean manufacturing understanding to implement efficient planning and employee utilisation
- Time and people management skills in planning and communication
- Demonstrated initiative with high attention to detail whilst meeting deadlines

This role would be ideal for someone with a manufacturing assembly background. Ongoing training and support is offered to the successful candidate. Working a 9-day fortnight, we provide excellent working conditions, the opportunity to work in a vibrant environment, and to be part of one of Australia's leading companies.

Applications should include a covering letter identifying particularly relevant skills and experiences, will be treated confidentially and should be directed hr@climtech.com.au
